The Workings of the Whisky Trust Explained.

Senator Sherman's Speach Against the Fisheries Treaty. The President's Latest Contribution to

Veto Literature. Pasadena's Application for Free Postal Delivery to Be Looked Into - The Senate Tariff Bill Nearing Completion-Commis-

sioner Black Not to Resign.

By Telegraph to The Times.

WASHINGTON, Aug. 7.—[By the Associated Press.] The House Committee on Manufactures today resumed the inquiry into the whisky trust. Joseph B. Greenhut of Peoria, Ill., president of the great west-ern whisky trust, produced the articles of agreement among the organizations form-ing the basis of the trust. Greenbut explained that the organization was a co-operative concern, intended to insure intelligent concerted action, but not to corner the market. Once a month the board of trustees meets to examine the books, and if circumstances warrant, declare a dividend. Of the total annual output of the trust (40,000,000 gallons of spirits) about 15 per cent was consumed as a beverage, 8,000,000 gallons was used in the arts and the remainder in manufacturing and wine fortifi-

atlons.

The witness believed that from the natural advantages, such as cheap fuel, grain and other raw materials, the domestic manufacture of spirits was fully able to meet European competition without the aid of import duties, which, in his opinion, were not necessary to enable our spirit-makers to control the market at home. Exclusive of moonshine products, Greenhut believed that the association made 65 or 95 per cent. of the entire quantity of alcohol manufactured in the country. THE SENATE TARIFF BILL.

The Senate tariff sub-committee is still at work early and late upon the details of the Tariff Bill, with the determination, if possible, to make all necessary changes in the original draft before reporting to the full committee or the Senate, expecting thereby to bring out a measure which the majority of the Senate can stand by as a whole. It is at the same time expected to give hearings to all who come. It began this morning the final revision of the measure in detail, and hopes to have the work completed this week. There is a probability that three or four contested points will be passed over by the sub-committee for the present, and possibly they may be submitted to a caucus for ultimate decision. The regular weekly meeting of the Finance Committee, which takes place Tuesday, was not held today. It is not expected that the Democrats of the Finance Committee, but it is thought that probably they will reserve such criticism as they may have to make for debate in open session.

FIFTIETH CONGRESS.

WASHINGTON (D. C.), Aug. 7.-[By the Associated Press.] Senate.—The resolu-tion offered yesterday instructing the Committee on Finance to make an investigation

of the cotton-bagging pool was adopted.

The Senate bill appropriating \$10,000 for a postoffice building at Mammoth Hot Springs in the Yellowstone National Park,

was passed. The Senate then resumed consideration of the fisheries treaty, and was addressed by Mr. Sherman in opposition to its ratifica-tion. As to the charge made on the other sid: of the House, that the policy of the Republican party was to make an appeal to the Irish vote, he considered that only a casual remark, made without any founda-The great contest about to be waged tion. before the people would turn on other ques-They would be the same old questions. tions talked about for the last 20 years. The duty of Congress was to protect, first, the industries and the country from undue com-petition with the labor of Europe, and, second, the rights of United States citizens at These questions would enter into the campaign, and would probably control the results. The opposition to the treaty was not a dernier researt on the part of the Republican party. That party needed no such ressort, standing as it did on its record and That on the great issues presented, and which would be further presented during the present session. He regarded the controversy with Great Britain as infinitely more important and more injurious than any controversy with any other nation, for of all the people who inhabit the globe, the peo-ple of the United States and of Great Britain were most intimately allied by every tie of consanguinity, of history, of taith, of institution, of similarity of character and disposition, of ancestry, and of everything which tended to make ties between separate nations. He therefore would have been glad to see in the pending treaty a settlement of the controversy, and he had FOR SALE—NEW FURNITURE AT the half price, at 114 W. First. Get there before it all taken. Mr. Sherman then proceeded to discuss the details of the pending treaty. He regarded the section of the treaty allowing the free importation of Canadian fish and this hoil as a surrender of the right of the United. States to levy taxes on imported goods, and as an insult to the United States. There was not in the history of diplomacy so one-sided a treaty between two great nations. Such a treaty between two great nations. Such a treaty between two great nations. Such a treaty seemed disgraceful to American diplomacy. He ridiculed the idea that the two great countries were going to war about this matter. If the President would, with moderation, exercise the powers conferred upon him by the law authorizing retailation, there would be no trouble.

The Senate then resumed consideration of the bill reported from the Committee on Foreign Relations to prohibit the coming of Chinese laborers to the United States.

Mr. Stewart spoke in favor of the bill, and, when he closed, the Senate adjourned.

House.—Mr. Outhwaite of Ohio called up for consideration the Senate bill making an apprepriation to enable the several executive departments of the Government to participate in the Ohio Centennial Exposition in September next. This provoked much discussion and opposition.

much discussion and opposition.

Mr. Cannon of Illinois said that the reason why the Committee on Appropriations had reported the bill was that Congress had already passed a bill to enable the departments to make an exhibit at Cincinnati, which was in the same State as Columbus and within a few hours' ride of that city and where the exposition was to be held at the same time.

Mr. Henderson of Iowa offered an amendment appropriating \$250,000 to aid the exposition to be held by the colored race in Atlanta, Ga., in 1893 and 1899, under the auspices of the Colored Workers' Fair Association of America.

Mr. Warner offered an amendment appropriating \$40,000 to enable the departments to be represented at the Kansas City Exposition to be lield in September and October. Adopted.

The amendments offered by Messrs. Wise and Henderson were adopted.

The question then recurred on the third reading of the bill as amended, and the yeas and nays were ordered and resulted—yeas, 68; nays, 91; not a quorum.

The House then adjourned.

WESTERN SPORT.

An Old Gentleman Who Has Kept Up His End. Yesterday afternoon Constable E. A. Poy orena of Los Nietos township brought to the County Jail old Dick Perry of Downey on a commitment from Justice Van Slyck of Norwalk for an attempt to commit murder on James Phelan, who resides in that neighborhood. The facts of the case, as learned from a gentleman from Downey, are about as follows: Perry had been placed on some land by Phelan, who had agreed to furnish him with provisions, and they would go shares. Perry, it seems, did not think that Phelan was doing as much as he should, and they had a dispute,

as he should, and they had a dispute, which ended in Phelan knocking Perry down with a club. Perry at once drew his knife, but was prevented by men standing around from using 1t, and it is said that he did not even have a chance to open his weapon. He was finally got away from the place, and remained at liberty until the time for his examination, Phelan having sworn out a complaint against him, when he went into Norwalk and surrendered himself.

Perry is 73 years of age, and has been himself.
Perry is 73 years of age, and has been living in this section many years, and has quite a history. He is said to have acknowledged killing nine persons, eight men and one woman, but this is probably an exaggeration. Some time ago he cut a man in San Bernardino, almost killing him, but for this he stood his trial, and

WAS ACQUITTED. Perry has figured in quite a number of ights of one kind and another, but the one which created the greatest sensation was the killing of John See, 11 or 12 years ago, at Downey. There had been some trouble between See and a friend of his and Perry. which resulted in the former two arming themselves and going after Perry with the avowed intention of killing him. The old avowed intention of killing him. The old man kept out of their way for some time, but finally getting tired of being hunted, went into the back room of a saloon at Downey, and getting a shotgun went out in front of the place, determined to bring the matter to a finish. See came up about this time, when Perry shot him, killing him almost instantly. He then sent word to See's friends that if they did not want the other man shot they had better get him out of the way, and let him alone.

THE OTHER MAN GOT. and when the inquest was held Perry was exonerated. An attempt was afterward made to have him indicted before the Grand made to have him indicted before the Grand
Jury, but this also failed. Shortly after the
killing of See his sister armed herself and
came into the town to shoot Perry, going to
the saloon where he was, but was prevented
from using her weapon, Perry telling her
friends to take her away or he would shoot
her. Old man Perry has always been considered dead game, and, as an evidence of
his character, when,

AFTER THE KILLING of See, he surrendered to the officers, he refused to give up his gun, saying that he refused to rive up his gun, saying that he did not want to hurt anybody, but that he did not propose to put himself up as a target to be shot at without having something to shoot back, and during the whole time he was under arrest he went armed. See, the man who was shot, was the father of Dick See, who killed Bill Duncan several years previous, and who was located a short time ago in Eilensburgh, Washington Territory, by Jailer W. H. Russell, where he is now in jail, and will be brought back here to answer for his crime in September.

Fine Programme for Today. The fair yesterday morning presented a quieter appearance than it did on the open-ing day, which is accounted for by the fact that the exhibits are assuming the propor-

ion to which their proprietors are endeavor-

ing to bring them.

Indeed, the prospects for quite a pleasing display in the pavilion are now more promising than they have ever been before. This is due more to the tasty manner in which they are arranged than to any especial fineness of the exhibits themselves. Nevertheless, what there is of the fruits, and nearly every variety is represented, is very fine, and deserves the praise of all. San Bernardino county presents the finest exhibit of all, and if the others would only imitate it the fair would be a great success. In addition to the exhibits pub-lished in yesterday morning's TIMES, the lished in yesterday morning's Times, the Davis Sewing Machine Company has entered a lot of sewing machines, and J. W. Gardner has entered an organ and two piahos. The exhibits will continue to come in during today, and possibly a few more will arrive tomorrow. The managers are very lennent in the matter of entering, and it is not probable othat any one will be refused the privilege of entering at any time. It is now almost impossible to state what will be the result of the pavilion part of the fair, owing to the slow way in which the exhibits arrive. The universal opinion thus far is that "it's very small, but what there is of it is fine." It is far beyond a failure now in point of quality, though from failure now in point of quality, though from a quantity standpoint, it would be a stretch

to say it was a success. The entries for the STOCK EXHIBIT-DIVISION A. Entries were closed Monday night at 6 clock, with the following exhibits:

riding slow; her fancy was for fast, hard work. Just before the close of the exhibition the judges requested the ladies to go up the track and return at their highest speed under the wire to the eighth pole, which is near the entrance to the track from the stables. As she ran her animal at full speed past the gale he made a swerve to the right to go through it. For a moment the crowd held their breath, but Miss Savage was equal to the emergency, and with magnificent skill pulled her horse up just in time to avoid being hurt by running against the post. The crowd yelled itself house in its applause. This finished the exhibition, and atter a few moments' deliberation the judges announced the rewards as follows: Miss Irene Savage first prize, \$50 and a whip, Miss Sarah Baker second prize, \$25, and Mrs. McElfresh third prize, \$15.

The next event was the Southern California trotting stake for 3-year-olds. The race was a

THE THIRD RACE was the 2:33, for a purse of \$1000; \$500 to first, \$250 to second, \$150 to third and \$100 to fourth. Mile heats—best three in five. The entries were Kelly's b. g. Valentine; driver, J. H. Kelly. The Palo Alto stock farm's entry, the b. f. Gertrude Russell; driver, C. S. Marom. The Pleasonton's stock farm entry, the ch. m. Maid of Oaks; driver, Andy McDowell, and W. H. Seale's b. g. Alfred S.; driver, M. McManus. In this race, Alfred S., the favorite, was barred in the pools. Valentine was second favorite. Maid of Oaks was slightly lame. Gertrude Russell was scratched before the start. Several bad breaks were made by the Maid of Oaks who broke badly every time the wire was approached. After was scratched before the start. Several bad breaks were made by the Maid of Oaks, who broke badly every time the wire was approached. After several attempts they got off, Alfred S. leading Valentine by a nose, and Maid of Oaks a length behind. Away they went until the quarter pole was reached, when Valentine closed up with Alfred S. till the two horses looked like a single team. Maid of Oaks was then about 10 lengths behind, and was virtually out of the race, for she never recovered the distance. From the quarter pole Alfred S. and Valentine set a hard gait, each trying to draw ahead, but neither gaining an inch. Neck and neck they went to the half, then to the three-quarter pole and into the stretch. Not a whip was used, and the two came down the stretch at a terrible race, still neck and neck. At the seven-eighths pole Alfred S. began to draw ahead a little, and when the wire was reached Alfred S. was half a length ahead of Valentine, with Maid of Oaks 10 lengths behin i. Time, 2:21.

After this heat Alfred S. sold for \$80 in the pools, with Maid of Oaks and Valentine in the field at \$10.

THE SECOND HEAT of the 2:23-class race was a surprise to every one on the track. After one or two futile one on the track. After one or two futile attempts the horses got off, with Maid of Oaks in the lead, Alfred second and Valentine third. Immediately after passing the wire, Maid of Oaks broke badly and lost 20 yards. At the quarter pole Alfred S. was leading Valentine by a length, with Maid of Oaks about 10 lengths behind. At the half pole the: os tions remained unchanged; the same was true at the three-quarter pole. When the stretch was reached Alfred S. endeavored to increase his lead, and, in doing so, went off his feet, letting Valentine and Maid of Oaks both pass him. At the seven eighths pole Valentine was leading by three lengths, with Maid of Oaks bext and Alfred S. 10 lengths behind. In this way, 'midst the yells of the audience, they passed under the wice. Time, 2:25.

The pooling after this heat stood: Alfred S., \$100; field, \$92.50.

THE THIRD HEAT was the most interesting of all, and caused a considerable flutter among the sports. It was evident to the jockeys that considerable pulling was zoing on to work the suckers, who were out in full force. The horses got off at the second attempt, Maid of Oaks and Alfred S. neck and neck and Valentine a length behind. At the quarter-pole Valentine led by a half a length with Alfred S. second and Maid of Oaks a half a length behind. Neck and neck the three horses went to the half-pole, when Maid of Oaks broke and went to the front in a run. For a hundred yards she held her lead, and then dropped behind three lengths, leaving Valentine and Alfred S. noses even. At the three-quarter-pole Alfred S. led Valentine a half a length with Maid of Oaks two lengths behind. Coming into the stretch Maid of Caks broke and fell back, while Alfred S. went ahead of Valentine a half. Coming down the stretch Valentine pushed Alfred S. hard, and finished with his nose at the latter's sulky wheel, with Maid of Oaks 10 lengths behind. Time, 2:2334.

Maid of Oaks' performance was considered wonderful, as she was in very bad trim. The effect of the heat on the pooling was to run Alfred S.'s competitors up considerably in the estimation of the "suckers" and to cause the old sports to back Alfred S., as they considered him a sure winner.

After this heat the a considerable flutter among the sports. It was evident to the jockeys that consider-

DISTRICT TROTTING RACE came on with three entries being mile heats, best three in five. Purse, \$300. The entries were: Rose's b.g. Dubec, driver Williams, and Durfee's Bon Tomas,

with Durfee driving After three ineffectual attempts the horses got off with Dubee leading, Pond Lily second and Don Temas third. At the quarter pole Don Temas third. At the quarter pole Don Temas climbed up and led Dubee by a half a length, with Pond Lily third. From the quarter to the half they went like the wind without changing their positions, except that Pond Lily dropped further behind. At the three-quarter pole the positions were still unchanged. Entering the stretch Dubee broke badly, but without losing distance, and they finished—Don Tomas first a length ahead of Dubee second, and Pond Lily third, 10 lengths behind. Time, 2:28½. The pooling on this race was: Dubee \$130; field, \$115. After three ineffectual attempts the horses

THE FOURTH HEAT, and last heat of the 2:23 class trotting race, came next. Five attempts were made became next. Five attempts were made before the horses got oir; Alfred S. in the lead, Valentine second and Maid of Oaks third. Valentine broke almost under the wire and lost 10 lengths. At the quarter Alfred S. led Maid of Oaks two lengths, with Valentine 10 lengths behind. At the half Alfred S. still led and Maid of Oaks broke, but lost no distance. The positions were not materially changed when the three-quarter pole was reached. Coming fast, the leaders swept into the stretch, and Maid of Oaks came to Alfred S.'s shoulder. At the finish Alfred S. led Maid of Oaks by a head, with Valentine 10 lengths behind. This heat decided the race, with Alfred S. first and Valentine second. Time of last heat, 2:25.

The trotters of the 2:35 class entered for Thelle Second Heat,

THEIR SECOND HEAT, and after three bad starts go taway, with Pond Lily leading, Don Tomas second, and Dubec third. At the quarter Don and Dubec third. At the quarter Don Tomas led Dubec by a half a length, with Pond Lily about 10 lengths behind. At the half the positions remained unchanged, and at the three-quarters pole they were still the same. Coming into the stretch Dubec crawled up and shut out the light between himself and Don Tomas. Down the stretch the fight grew bitter. Dubec tried to win, but could not make it, and came in a nose behind Don Tomas, first. Pond Lily was 15 lengths behind. Time, 2:28%. In the pools Don Tomas and Pond Lily sold for \$40 and Dubec for \$20\$. In the pooling before the race, and even after the first heat, Dubec was the favorite, and sold well up.

the horses came to time looking very fresh After one or two attempts they got off with Pond Lily first, Don Tomas second and Pond Lily first, Don Tomas second and Dubee third. At the quarter pole, Don Tomas led Dubee by five lengths, with Pond Lily twice that number behind. The positions at the half were not materially changed, nor were they at the three-quarter pole. Coming in the stretch Pond Lily fell back still further, while Dubee came up and gave Don Tomas a brush for about 50 yards, and then fell back to a position about fobr lengths behind him. The finish was: Don Tomas first, and the winner of the purse, Dubee second and Pond Lily third. Time, 2:254. This concluded the day's programme, the finish being at 5:40 o'clock.

TEACK NOTES.

A general stock parade will take place at 9:30 this morning, consisting of all the exhibits on the track.

The pony exhibit will take place this morning directly after the stock parade, and will be without competitors. Two slight scrapping matches occurred during the afternoon, but no one was hurt, and the participants soon made themselves

The management deserves much credit for the successful way in which yesterday's races were run. There was not a drawback. An attempt was made to get up an extra running race, a nine-sixteeuths of a mile dash, but the purse, \$100, was not large enough for the slow horses to take the chance of losing their \$10 entrance fee.

Four Aces is very lame in his stable, and in consequence is scratched for today's events.

MISTAKEN IDENTITY.

A Mysterious Arrest in the Early Morn.

What looked like a good story fell to the ground yesterday. Yesterday morning about 2:30 o'clock a man in a hack drove up to the police station, went inside and, after a consultation with the officer in charge, came out and drove off with Officer del Valle. The two were gone about 15 minutes, when they returned, and after a det Valle. The two were gone about 15 minutes, when they returned, and after a short stop again drove off. About 3 o'clock Del Valle came back in the hack with Ignacio Mereadas, a chorus singer, who came here several weeks ago with the Spanish Opera Company, and who has been playing the plano in a negro house of prostitution on Alameda street, where he was arrested. The man was booked "Heid for the Chief," and locked up. He said he did not know what he had been arrested for, and the officers said that all they knew about the case was that he had been arrested by orders of the Chief. Altogether the affair looked very mysterious, and yesterday when the reporter inquired about what disposition had been made of Mareadas, he was told that he had been released, and that they knew nothing about the matter.

Later in the day the reporter met the gentleman who had first come to the police station in the hack, and when asked what the mysterious visit meant, said, nothing; that he understood that the man was wanted, and he had given the information. It was a case of mistaken identity, but there is something in the wind which looks as though it might develop into a sensation.

PRESIDENT M'LAUGHLIN.

He Is Ordered to Go Slow and Kicks

Like Blazes.

President McLaughlin of the Secondstreet cable road has no particular affection for the police force and has shown his dis like on several occasion, among other things prohibiting them from riding free on his cars, except when in full uniform, as they had been accustomed to do. Yesterday morning Mr. McLaughlin passed the cor-ner of First and Spring streets, riding one horse and leading another, going at a trot. He was called on by Officer Fitch, who is stationed at the corner, to come down to a walk, as is the rule in passing this corner, walk, as is the rule in passing this corner, the officer remarking in a pleasant manner that if he walked the horses they would last longer. This seemed to anger McLaughlin, who, after he passed, came back, and, applying an approbious epithet to the officer, asked him his number, which was promptly given, and he was referred to the police station, where he went and lodged complaint against the officer. Chief Cuddy, on hearing the facts, declined to pay any attention to the matter, as he said Fitch was only doing his duty. The officer says he will swear out a complaint against McLaughlin for fast driving and also for using foul and abusive language to a police officer on duty.

A JAILER'S TROUBLES.

Murderers in the County Jail Who Want to Die. . Jailer Russell yesterday captured enough strychnine which had been smuggled into the jail to poison a hundred men. Mr. Russell was told yesterday morning by one Russell was told yesterday morning by one of the "trusties" that he knew that poison had been smuggled into the prison, but that he did not know just where it was. He had discovered it first from overhearing Anschlag inquiring about where to get it. Mr. Russell at once instituted a close search, and finally found the poison in the pocket of a pair of pantaloous hanging up in the cell of Fray, the Antelope Valley barnburner. The drug was contained in a brass cartridge, stopped up with a wooden plug, and was at once confiscated. Mr. Russell is in constant fear lest Anschlag should secure poison and kill himself, as he has said that he will never be hung. If he hears of anything of the kind he appears to be wild to get hold of it, and on one or two occasions has tried to bribe persons to get him morphine or other poison, promising to pay them liberally, but so far the jailer's vigilance has evabled him to keep anything from him. It is comparatively easy for contraband articles to be passed into the jail, as outsiders can get up to the windows from the outside and the "trusties" have to pass the tanks in coming from or going to the kitchen, and can easily hand in anything through the bars. of the "trusties" that he knew that noison

Thomas F. Donahue, city policeman, testified in regard to the capture of Caines at the time of the burglary on Lambourn & Furner's store. A coil of rope and a loaded pistol were taken from Caines. I shot at an angle in the air at A. W. Marsh to give Caines and Webb the impression that we wanted to catch him. Mr. Cuddy had told me the small man was to be al owed to escape. He was masked. I did not know his name until he was arrested.

Witness: About the 18th of February Caines approached me and asked if I wanted to make some money. I asked what he meant. He said Lambourn & Turner only banked once a week, and we-could get at least \$1200 or \$1500. We arranged for a meeting with Webb. I had been working for the Chief of Police. Mr. Cuddy said to go ahead. Caines told me that he and Webb had examined the premises and that it would be easy to wheel the safe into the backroom and blow it open. I had talks with them before this a number of times about the store and other stores. Webb told me that he had all the tools necessary, except a breast-drill, which he had lost on another job. He drew a picture of the drill on a book which was taken from Lucas' office at the time, and was on exhibition at the last trial. The book still has the drawing. Webb suggested that a cloth mask would do. We prepared masks on Sunday afternoon before the burglary. Bliss came into the room for a while. The next Monday evening we met. Tuesday we met in a saloon near the court house, on Spring street, about \$ p.m. Webb said the tools were down at his brother's store. Caines suggested that they could be left in Lucas's office, which was done, and remained there until 12:30. Caines led us to the rear of Lambourn & Turner's store. Caines went into a blacksmith shop and got a jimmy or short crowbar. I was stationed as ta guard. Caines and Webb bried one door at the rear of the store. They failed and Webb bored 10 or 15 holes in the other door. Then they went back and opened the other door. I said: "Wait till I get the tools." Just then I heard a voice say: "Throw up your hands." I had had an understanding that I need not enter the building if in my best judgment. I was afradid I turned and ran some of the officers might shoot me, so I entered the store. Lynch covered me with his revolver. I had passed Caines and Webb, as they were having a tussle with the officers. Cuddy sold they had as a ferminate the same of the store of heart

A Case in Point.

Judge Elwell, in his charge to a Colum bia county (Pa.) jury, says: "It is no necessary that a detective should be a per son appointed under statute law. not necessary that he should be an official with a commission from the executive, nor that he should be charged with the duty of a detective by any body of men organized for that purpose. If there are depredations being committed in any neighborhood, the persons there have the right to employ one specially to fook after their interests, and to detect and expose the crimes committed. When it becomes necessary to break up a combination of criminals, a detective may assume the rôle of a thief; he may dress in the garb of a thief; he may mix with thieves; he may participate with them in all their adventures; he may counsel and encourage the commission of crime; but all this must be done honestly." The Judge further stated that "a detective is not bound not necessary that he should be an officia this must be done honestly." The Judge further stated that "a detective is not bound to be a prosecutor; he is to detect, so that those interested may prosecute."

GAMBLING AGAIN.

The Corrupt Wing of the Democratic Party at Work.

There are strong surface indications that a determined effort is being made to reopen the gambing saloons. The near approach
of the election is making the politicians
very uneasy, especially the machine wing
of the Democracy, who, to a certain extent,
are committed to this element, body and soul, and who will miss the very liberal contributions of the sporting fraternity to the election "sack." But it is not the Democrats alone who desire to see the gaming places reopened. It is an old saying that politics make strange bed-fellows, and this holds true of municipal politics in Los Angeles, as well as in San Francisco and other metropolitan cities, and the "pothouse" element of the Republicans are equally anxious to have the breach healed, for it makes no difference which side gains the day, these elements always manage to hedge for self-protection—that is, both sides work together when it comes to spoils, and divide in order to keep up their prestige. This fact is shown by the fact that Republican and Democratic gamblers both contribute and work for the party that they can best use. Just what will be accompolitics make strange bed-fellows, and this can best use. Just what will be accom-plished it is hard to say, but if hard work and persistent pressure will do anything, something must give way, unless the city authorities will insist that the law be en-

forced.

A rather significant incident occurred in

A rather significant incident occurred in connection with the raid on the Brunswick hokey-pokey, which occurred Monday, which is corroborative of the above facts, and will open the eyes of the people to a certain extent to the existing state of affairs.

When the gamblers were brought into the station, Chief Cuddy appeared to be greatly surprised, and cailing McGrath, one of the officers—who—made the raid—into his office, told him that "he did not want any more games raided unless he gave orders to that effect, and that he did not want him (McGrath) to forget it." The Chief did not appear to relish the idea of having the game pulled at all; and, later, when a reporter, who was present at the station, copying the names of the men who were brought in, for publication, the Chief again interfered, saying that they did not want any publicity given to the raid, which, by the way, was the Brunswick, run by De Garmo. Just what this action on the part of the Chief means, it is hard to say, but it looks as though he is again trying to take the bit in his teeth and run matters as he pleases, irrespective of the wishes of the other members of the board. Mayor Workman left yesterday for San Francisco, and will be absent a week or ten days. In his absence, Mr. Humphreys is acting Mayor, whose position is well known on the matter of gambling, and he will not allow the games to run if he can prevent it. It is a well known fact that great pressure has been brought to bear the past week or two to allow the games to run, and this looks like the Chief at least will make the effort to allow them to open. The public will be easily located.

AGAIN RUNNING.

will be easily located AGAIN RUNNING. The Brunswick, which was raided Monday, was again running last night. It looks as though this was a "feeler" put out to see which way the wind blows, or it may be that the gamblers think that when Mayor Workman is out of the city they can defy the law, as there are but two members of the Police Board in the city, one of whom is the Chief of Police and that Mr. is the Chief of Police and that Mr Humphreys, the remaining member, is pow erless. When Mayor Workman left before the same state of affairs prevailed.

IN THE FLAMES

An Inquest on the Man Who Was Burned to Beath. Coroner Meredith yesterday held an in-quest on the body of the man Patrick Mc-Carthy, who was burned to death in the fire on San Fernando street Monday night. Quite a number of witnesses were examined, including the proprietors of the ined, including the proprietors of the burned buildings, Ryan and Zetter, but nothing was developed that threw any light on the cause of the fire. One thing did come out, however, and that was that there was no love lost between the parties, did come out, however, and that was that there was no love lost between the parties, and Coroner Meredith had hard work keeping them in bounds and confining their testmony to the material facts. Both sides would insist upon airing their private grievances upon the witness stand, and criminations and charges were thick and fast. One man testified that he was in the next room to where the fire broke out, and that he saw the blaze through a crack and gave the alarm. He was certain that there was no one in the room at the time, as the partition was very thin, he said, and he was consident that he could have heard them had they been there.

McCarthy, it was learned, was in the rear room of the saloon when the fire broke out and was stupid from the effects of liquor, and the fire burned so fast that he could not be got out. The jury returned a verdict that Patrick McCarthy, aged 50 years, came to his death from burns received in the fire as above stated.

Ryan, who was so anxious to get out a complaint against certain parties Monday night for incendiarism, evidently changed his mind yesterday, as nothing was done.

aged thirteen years, who has, oeen afflicted
with eczems for a long time, and I am picased
to say that I believe the remedies have cured
him. His sufferings were intense his head
being nearly raw, his ears being gone except
the gristle, and his body was covered with
sores. His condition was frighful to bebold.
The sores have now gildisappeared, his skin is
healthy, eyes bright, cheerful in disposition,
and is working every day. My noighbors are

BANGUP HOTEL, SLUSHVILLE-ON-THE-SLOUGH, Aug. 5 1888. Slushville is at present overflowing with the elite of the haut ton. They crop out at every corner, and it is a common remark by new-comers that none of the leading pleasure resorts of the East or Europe can show anything like an equal amount or quality of refined cerulean blood as may be seen gathered at one of those little negligee hops, for which the Bangup is famous. We have not only beauty and style, but also brains and good taste, as you may Judge from the fact that more than ten per cent of the guests have promised to subscribe to the Tribune, the people's paper-if

Needless to say, the Bangup is the leading attraction in Slushville. In and around this elegant hostelry the elite congregate, and mine host Smudge—a genial, wholesouled gentleman—puts them all at their ease by his easy, affable, native bearing, here slapping a millionaire on the back, and there chucking a dainty ingenue under the chia, while, in his cheery voice he shouts 'Front!' or 'Pork an' beans for two!' The hotel has been 'furnished in the most gorgeous style by that enterprising firm, Woude and Leither; decorations by that rising young artist (colored) Kuhn Calzomign, who, by the way, has promised to look carefully over a free copy of the Tribune which I gave him. The culinary department is presided over by that prince of che/s. Patricius Oflerty, who is an attentive reader of the base ball columns of the Tribune, a copy of which he never fails to solicit from the free bundle which you send me. The tonsorial artist of the establishment, Mr. George Washington Smithers, is an adept in his profession, and never fails to incidentally inform his patrons, while he is shaving them, that the Tribune is the leading journal of Southern California. I have promised him to ask whether ing attraction in Slushville. In and around

while he is shaving them, that the Tribune is the leading journal of Southern California. I have promised him to ask whether you could not let him have two free copies in raturn for this service.

The Bangup is of course a hot-bed of flittation and recherche scandal. By a little judicious flattering mention in my letters to the Tribuns, I have succeeded in getting closely en rapport with the filles de chambre of the hotel, and expect shortly to have some choice marceaux to dish up for your readers regarding some of the elite. I shall, however, first see them and find out whether they will subscribe for the people's paper. As you very pertinently remarked in your last letter: 'Business is business.'

I am at present working up a clew which I think will lead to most sensational developments. It is nothing less than the discovery of an empty beer bottle under the chamber window of one of the reigning society belies of your city, whose relatives are leading lights of the Prohibition narky.

society belies of your city, whose relatives are leading lights of the Prohibition party.

society benes of your city, whose relatives are leading lights of the Prohibition party. More anon.

Acting on your suggestlon, I have made it all right with the night watchman, and bought a pair of rubber slippers, so that now I cau circulate freely around the hotel corridors ft. w most of the knests have retired, and ... a free access to the keyholes. By common consent the palm for ne plus ultra female charms is par exemple conceded this season to Miss Penny Bunn, a ravishing nuance in pink and rold, who has wrought have among the hearts of our visiting gallants. Her bathing hour is a point of apput for the entire neighborhood, and even the peanut man is so overcome by a glance from her liquid eyes that he gives her double measure. By the way, she is my first bona fide subscriber, having ordered the Tribune for three months, and promised to pay for it as soon as she receives remittance from her cousin, who is in the bakery business at San Bernardino. You can see that the people's paper is rapidly gaining ground here.

A little incident to which I was an eyewitness the other day aptly illustrates the mutability of the feminine mind. A dazzling society belle—a member of the haut ton—was seated on the plaza conversing with a youthful member of the legal profession, when she exclaimed: "Oh, Charley, I wish I had a glass of soda-water!" Charley, I wish I had a glass of soda-water!" Charley at once ran off to get the coveted beverage. On his return he found his inamorata in close conversation with one of Los Angeles' jeunesse dores. Seeing him standing

in close conversation with one of Los Angeles' jeunesse doree. Seeing him standing by with the glass she petulantly remarked:
"Oh, bother your old soda-water! Take it away!"

One of the most stylishly-dressing ladies One of the most stylishly-dressing ladies of our coterie was placed in a most embarrassing position last week. To save her blushes, I will not indicate her, beyond remarking that she is colored and weighs 250 pounds. On her way from the bathnouse to the water, proudly conscious that her costume was sans peur et sans reproche and that she was the cynosure of ait eyes, she stubbed her toe against a plank half hidden in the sand. The concussion caused a small rent in the stockies and a receiver.

hidden in the sand. The concussion caused a small rent in the stocking and a massive toe was momentarily exposed to view. Figure to yourself the sensation! It furnished the Bangup with a subject of conversation for two or three days. A vessel ran ashore last week in the Slough. This is considered by the enterprising Slushville syndicate as a conclusive proof that we have the harbor of the future and shall receive the commerce of Asia and Australia.

forgot to mention that the scullery sub-I forgot to mention that the scullery subdivision of the culinary department at the Bangup is under the charge of that genial gentleman, J. Cesar Brown (colored), assisted by your humble servant. A lady from Maine, who recently loohed over the establishment, declared that never, even in the old homestead, had she seen pots and pans cleaner than in the Bangup scullery. I gave her a copy of the Tribune and she may possibly subscribe.

NOTES. John Jenkins, the dizzy blonde who preover the ribboa counter at the Elephant store, makes a regular weekly trip to Slushville and stops at the Bangup. He is said to be ensnared by the wiles of a ravishing brunette from San Pedro.

The elegant tournure of Dick Killum's limbs rivets the admiring glances of our belies during the bathing hour.

Si Thompson sat down suddenly on a jagged rock yesterday and had to stay there until they brought him a shawl.

It is whispered that a charming young blonde, who is slightly isclined to embonpoint, thinks that the young man with the white derby and the eyeglass is "just too awfully nice for anything."

Mark Smith, the peanut merchant, does a rushing trade. He is a genial, whole-souled gentleman. phant store, makes a regular weekly trip to

gentleman.

The expression that is most frequently heard on the lips of our haut ton is, "The Tribune is the people's paper. Ain't it, though?" To which the answer invariably is, "You bet yer life!"

It is whispered that a colored attaché of the culinary department will shortly lead to the Hymenial altar one of our best known young ladies of the Bangup staff.

Caldwell was arrested a short time ago for stealing a watch, but after betime ago for stealing a watch, but after being locked up for a couple of days the officers were compelled to release him because of insufficient evidence. Several days ago a man by the name of Dehamy was set upon and badly beaten by a partner of Caldwell's. Caldwell, knowing that Dehamy had about \$20 on deposit in a saloon where he worked, took kim to his room to care for him, and in the meantime induced him to sign an order on his employer for the money in his hands, which he appropriated to his own use. When Dehamy recovered and found that his money was gone, he had Caldwell arrested on the charge above stated. Chief Cuddy thinks he can also prove the watch case on him, and he will have a good chance for a trip at the State's expense.

A LUCKY TRIAL

DEAR STR: It sflords me great pleasure to send, you this voluntary statement of my experience in testing the merits of Joy's Strasparila. For the past five years I have been trought. For the ceedingly sliggish liver, and within the past two years it has been the trial a thoroughly disordered stomach, including less of appetite and distress after eating, pains in the he petite and distress after eating, pains in the he petite and distress after eating, pains in the he petite and distress after eating, pains in the he petite and specially for the liver, and never could get more than temporary relief of about a week or two. I was recommended to try a bottle of Joy's vegetable Sarsaparilla as a test, and while taking the first bottle I became convinced of its merits for I could feel it was working a change in me. I have taken five bottles, and during that time my troubles have first. Ferrything its working full and regular, in fact it has cleansed, purified and braced me up generally. I feel like a new man. You sreets perfect liberty to use this as you see fit, or you can refer whom you please to

With Beamish, corner Third and Market streets,

From and after this date-August 8thand until further orders, the price of THE TIMES to newsboys and newsagents in the

WICHITA, the Kansas boom city, by American vessels. now boasts of 39,069 population. GEN. HARRISON has definitely de-

cided to make no electioneering trip during the canvass. THE men who laid in heavy stocks

of bandanas are not happy. The red rag didn't "take."

SAN DIEGO county's assessment has increased from \$18,737,134 in 1887 to \$38,670,778 this year. Quite a raise.

very abundant rains, and the cattle men are happy. THE Senate tariff sub-committee is

hard at work upon the details of the Republican Tariff Bill, with the hope of having the work completed this In supporting his bill for determin-

ing sites for irrigation reservoirs, Senator Bowen said that nearly one-half of the entire globe came under the head of arid land needing irrigation. PASADENA is much worried over the

increasing number of places in that city where liquor is sold. It seems that prohibition does not at present prohibit in Pasadena.

GEN. HARRISON has been very happy in the speeches which he has delivered up to date. Even the Democrats have been unable to find any fault with them.

High rents, according to the Kansas City Star, "are damaging more Kansas towns today than all the other evils combined." Los Angeles has had some experience in this line, but the drawback is becoming less from day to day, as more buildings are erected.

NEW YORK CITY has another labor question on its hands. The number of laundresses there has been reduced from 3000 to 300, owing to the compe tition of convict labor at Sing Sing. This labor question is a very tough nut to crack.

THERE would have been very little regret expressed among the residents of this section had Judge Lynch dealt with the brutal ravisher who was vesterday brought down from Pasadena. Hanging is altogether too good for such a self-confessed fiend.

Our Foreign Commerce.

A recent dispatch from San Francisco announces that the British steamers plying from that port to Australia are to be taken off, owing to the withdrawal of a subsidy which they have hitherto received. This will leave the Pacific Coast without any direct steam communication with the important and growing Australian colonies, whose trade with this coast has been rapidly growing in importance of late years.

It is disgraceful enough to depend entirely upon British ships to transport our passengers and mails and freight to the antipodes. It will be not only disgraceful but inconvenient and damaging in the highest degree to have no direct steamship communication at all.

To what a pass has the United States mercantile marine come! The traveler who takes passage to Europe must perforce sail under a foreign flag. The Stars and Stripes are conspicuous by their absence on the great highways of ocean travel. In this connection it is interesting and encouraging to note that Gen. Harrison fully realizes the existence of this great evil, and has given thought to the best remedy for it. In a recent speech, delivered by him to a visiting deputation, he not only declared himself in favor of preserving the American market to American producers, but also in favor of extending our foreign trade by closer commercial relations with the Central and South American republics and governments.

He said:

"Regular mails are the first condition of commerce. What we need is the establishment of American steamship lines between our ports and those of Central and South America. Then it will be no longer necessary that an American minister, commissioned to an American State, shall take an English ship to Liverpool, there to find another English ship that shall carry him to his destination. We are not to be frightened by the use of that ugly word, subsidy." We must pay to American steamships a liberal compensation for carrying our mails, instead of turning them over to British tramp steamships."

This is essentially the Republican He said:

This is essentially the Republican idea which, had it not been obstructed by Democratic majorities in Congress. would have saved to this Nation the large amount—approximating, we believe \$150,000,000—which it has paid within the past few years to foreign ships that have carried its mails, its freight and its passengers, and which would have added other millions to its wealth by development of trade with countries which are comparatively near to us geographically. Gen. Harrison very aptly expressed the national policy of preserving the market of this Republic to the citizens of the Repub lic and of extending our foreign trade

Concerning One H. M. Ryan.

Some time ago THE TIMES had occa sion to comment, in a not very complimentary manner, upon the actions of a person named H. M. Ryan, who, during the height of the boom days in this city organized a company known as the Chino Valley Manufa turing and Improvement Company, for the ostensible purpose of developing the resources of Mr. Richard Gird's SOUTHERN ARIZONA, after a long Chino ranch in San Bernardino season of drouth, has been visited by county, but in reality to induce creduous persons to purchase lots in the 'city" of Chino, which was soon to become one of the "manufacturing centers" which were so numerous in this section a year ago—on paper. There was nothing small about Mr. Ryan's programme of operations. He claimed to be a practical man of experience in the manufacture of iron. "Why," he asked, "should California import annually 700,000 tons of iron and steel ?' Why, indeed, and Mr. Ryan proposed summarily stop such short-sighted policy by building on the Chino ranch rolling mills, furnaces, pipe works, and all the appliances for the reduction of iron ore and its manufacture. The fact that there was neither ore nor fuel might have fuel on the ore ranch appeared as a drawback to an ordinary person, but no such trifle was allowed to stand in the way of Henry M. Ryan. He had a good site for a "manufacturing center"-what more could be wished? The iron ore was to be brought 25 miles from one direction and the fuel about 1000 miles from another. grand office was opened in Los Angeles and the books opened for the sale of lots in the coming city of Chino. All at once, however, it began to be whispered that everything was not all right. Mr. Gird, the owner of the ranch, who had been led into the scheme, investigated, and as a result the fine office was summarily closed and Mr. Ryan shortly after disappeared, as mysteriously as he had ar-

neither legally nor morally bound for

Our reason for referring to this little episode of recent history is an article which appeared in the Salt Lake Tribune of the 3d inst., in which some un truthful and uncalled-for remarks are made about THE TIMES. Two weeks ago the following dispatch was published in the San Francisco Chronicle:
SALT LAKE CITY, July 23.—Henry M.
Ryan and Carl Van Bronck, from Los
Angeles, are here, having bought for themselves and other Californians associated
with them the immense iron beds of Utah
at Iron City. They have also found there
a large vein of good coking coal and plenty
of limestone. The company is organized
under the laws of California, with a capital
stock of \$15,000,000, of which \$1,000,000 will
be expended in plant. The president of the
company is Clarence Richards; vice-president, Carl Van Bronck; treasurer, Etward
Records; expert, H. M. Ryan, all of Los
Angeles. Two furnaces of eighty tons
capacity each will be erected; also puddling
furnaces and rolling mill. A speciaty of
the manufactures will be heavy iron
pipe of all kinds, steel rails, etc.
From this it will be seen that Mr. lished in the San Francisco Chronicle: From this it will be seen that Mr.

Ryan is at his old tricks in a new field. The Chino Valley Champion of July 20th republished this dispatch, and also an article from THE TIMES of July 18th, giving the substance of an interview with Capt. Garrett of this city, in which Ryan's character in Missouri was exposed. The Champion also stated that it was understood that Ryan had obtained \$20 and a railway ticket for Montana from a gentleman

in Los Angeles. A copy of the Champion containing this notice, also of THE TIMES, had been received by the Salt Lake Tribune, which journal had sought out Mr. Van Bronck, who is reported as

saying this: The animus of The Times, Mr. Van Bronck thought, could be traced to Ryan's having licked the city editor for unpleasant remarks about him in print, but ex-Mayor Colvin and Alderman Hildreth of Chicago had met Ryan last winter in Los Angeles and they treated him like a gentleman. This didn't look as if this Ryan was off color.

Mr. Van Bronck's statement is abso lutely false. Ryan never "licked" the city editor of this journal, or any one else connected with the paper, nor did he, fortunately for himself, attempt to do so. He was simply exposed as a confidence man and a fraud, as THE TIMES has exposed many of his ilk, and then he quietly slipped away to parts unknown, having probably, as the Champion asserts, begged a railroad ticket of some acquaintance.

If the development of the "immens iron beds" at Iron City rests with H. M. Ryan, the Salt Lake Tribune may safely consider it as an indubitable fact that a considerable period of time will elapse before active operations extend beyond the pockets of the share holders.

Inconsistency.

The Woman's Christian Temperance Union, which met in the city of Louisville in 1882, passed the following reso

"The Woman's Christian Temperance Union desires to express its earnest sympa-thy with the movement favoring the total abolition of the internal revenue taxes on abolition of the internal revenue taxes on all alcoholic beverages at present collected by the National Government, as we believe that the taxation of this business is wrong in principle, an outrage on the moral sentiment of the country, a quasi indorsement of a pernicious traffic, a legalizing, so far as the National Government can, of a busings that is the source of most of our crime and poverty, and a great hinderance in the way of the removal of the traffic and its attendant evils out of the land.

"We further believe that this revenue is not needed by the Government, and that the large surplus that it brings into the treasury is a standing menace to honesty and a fruitful source of, if not an invitation to, corruption. For these reasons we earnestly urge the abolition of these taxes, and we invite the cooperation of all classes to this end."

In their convention held at Nashville

In their convention held at Nashville in 1887 they reiteraced, the sentiments of the resolution of 1882, declaring that such tax "operates to render more difficult the securing and enforcement of prohibitory laws, and so postpones the day of national deliverance.'

We shall not undertake to say that the union is wrong in its assertionsnor that it is right. We merely want to point to the inconsistency of the Prohibition and Democratic organs in howling against the so-called "free plank in the Republican platform, which advocates, under certain contingencies, the very thing which these people so ardently desire.

THE Democrats have displayed a noteworthy lack of enthusiasm so far during the campaign, as well they may, considering the heavy load of adverse public opinion which they have to carry. The wholesale defections of influential men from the Democratic ranks are enough to discourage any party. Even the bandana scheme failed to put any life into the disorganized Bourbon army, and it looks as if the result of the coming conflict would be an ignominious rout.

KANSAS CITY also has discovered 250 saloons disguised as barber shops, poolrooms, harness shops, laundries and groceries. An indignation meeting is to be called, but it will do little The Prohibition movement is founded on hypocrisy and hypocrisy is its chief result. High license is the best practical treatment of the liquor evil.

THE St. Paul Globe says that city and Minneapolis are crowded with young men of good habits, excellent education, unbounded energy and ready to turn their hands to anything, who seek work, manual as well as intellectual, yet meet with no succes whatever. Southern California offers good openings to such men as these.

THE New York Graphic thinks it about time to establish a penal colony in Alaska and to start in by sending the Chicago Anarchists there. bad idea, but rather rough on Alaska Better buy Kamtschatka and send THE first bill introduced in Congress

become a very important industry in California, and the reduction was therefore a very unwise move. Now, the Mills Bill proposes to reduce the duty still further—to 1½ cents a pound, a reduction which will come out of the

pockets of California wine-growers. A SHORT time ago a story was started by a Chicago paper to the effect that President Cleveland, under the influ ence of Mrs. Cleveland, had abandoned the use of all intoxicants. The Buffalo Demokrat is exceedingly indignant at this libelous statement, and vents its feelings as follows:

its feelings as follows:

We know from the best sources that President Cleveland remains true to his habits of life, which are entirely solid and free from any inclination toward temperance nonsense. We know especially that very recently, in a social circle with friends from Buffalo, he has taken spirituous drinks, not privately or sneakingly, but publicly, and in the evident consciousness that he was doing something lawful and harmless. In regard to the assertion of the Chicago Mail that through the influence of Mrs. Cleveland the President has sworn off, we simply repeat or averment that this is untrue.

Thus the false assertion of the Chicago Mail respecting Mr. and Mrs. Cleveland was calculated to make an unfavorable impression upon voters who are prepared in the present campaign to support the President.

It would undoubtedly ruin Mr.

It would undoubtedly ruin Mr. Cleveland's chances of election were it established that he had become a teetotaller. Such a fact would be almost as horrifying to the Democrats as the asserted "free whisky" resolution of the Republican platform.

THE San Francisco Bulletin recently hit off the character of the Mills Bill very neatly when it said:

"If they were producing raisins in South Carolina instead of in Fresno, if the New Almaden quicksilver mines were located in Mississippi, if the fills of the South were covered with sheep, if Georgia had vast forests and North Carolina took a foremost rank in potatoes and barley, the Mills Blil would be the exact reverse of what it is."

Propulation is lauded by its adherents as a great assistance to the growth of a section, but figures do not always bear out that view of the case. During the past year the school population of Iowa has increased only 570, a result attributable to the prohibitory law, which, it is said, has driven hundreds of families into more liberal communities.

ENGINEER PERRY of the Nicaragua Canal says that construction will begin in October, that the work will be completed in six years, and that the Panama Canal will never be finished. California would be glad to see both these big enterprises completed. It would be a fine thing for this coast.

THE Cincinnati Freie Presse, an influential German paper, very aptly re-

"The friends of our country and its in-dustries are the 151 Republicans and three Democrats who voted against Mills's free-trade bill. Its enemies are the 165 Demo-crats and four Independents who voted for Mills's bill."

An Indiana Labor Organization
Passes Resolutions.

INDIANAPOLIS, Aug. 7.—[By the Associated Press.] The State Federation of
Trades and Labor Unions of Indiana held
its fourth annual session in this city today.

Emil Lay of Evansyilla was realected Emil Levy of Evansville was reëlected president, and John H. Hannigan of Lafayette secretary and treasurer. The delegates present took action regarding the political measures of the day, and adopted a series of resolutions condemning the policy of legislation since 1861, with reference to the bonded debt of the Nation; opposing all laws which led to the transfer of the burdens of excessive taxation to consumers and laboring classes, and de claring that they "cannot support the can-didates of the Republican party for President and Vice-President because both of them are wanting in sympathy for the laboring classes.'

A resolution charges Gen. Harrison with ommanding a company of soldiers during the strike of 1877 to shoot laboring men down after having refused an attempt at settlement by peaceable men. Morton is spoken of as a "Wall-street money shark and sharer in the unholy gains of many greedy corporations that have cruelly op pressed their employés." The resolution also refers to Gen. Harrison's vote on the Chinese Bill while in the Senate.

The sessions of the federations are held with closed doors, and it is charged openly that some 30 to 40 accredited delegates known to be Republicans were refused adknown to be Republicans were refused admittance to the hall. The greatest difficulty is encountered in ascertaining how many accredited delegates were present and participated in the sessions. From Democratic sources it is asserted that there were 265 delegates present, while from a Republican source it is claimed that only 65 delegates participated. In the adoption of the political resolutions, and two of these (one a Greenbacker and the other a Republican) were opposed to adopting the resolution. Nonquirr (Mass.), Aug. 7.— By the Associated Press. Col. Blount of Gen. Sheridan's staff and Col. Kellogg arrived here this morning to assist in the arrangements for the removal of Gen. Sheridan's body to Washington. Gen. Schofield will probably not come. It has been decided to close the Nonquitt reservation, which is private property, against all outsiders during the removal of the body. Mrs. Sheridan will leave here by the 5 p.m. boat on Wednes-day with the remains, and be accompanied Col. Sheridan, Col. Kellogg and Col. lount, two sisters of Le Bon Secour and servants. A guard of honor of six men each from Posts No. 1 and No. 190 of New Bedford will attend the body, and at New Bedford the remains will be received by the posts of that city. The special train will leave at 6 p.m. for Washington. On board the train will be a guard of regulars

On arrival at Washington the body will be taken to St. Matthew's Church, or to the Church of St. Aloysius. Requiem mass will probably be celebrated by the Cardinal. In case he is not present, the parish priest will officiate. The President and Cabinet and both houses of Congress will attend, and at the conclusion the remains will be taken to Arlington National Cemetery, where the burnal services will be read.

Only immediate members of the family see the remains. It is said the face appears natural. No cast of the face will be taken, this being the wish of the family.

THE CASKET.

Boston, Aug. 7 .- Gen. Sheridan's casket was shipped this evening to New Bedford. The casket is elliptical in shape, and the body is made of red cedar. The outside is covered with the finest broadcloth, heavily draped on the side with a material made for this purpose. It has a handsome though outsides.

for this purpose. It has a handsome though quiet effect.

One of the largest and most beautiful floral pieces, which will be sent to Washington to the funeral of Gen. Sheridan, was on exhibition this evening on Tremont street. The piece is nearly six feet in width and represents the "Gates ajar." In the center are two large pillars in an arch, having in the center a cross and crown. Suspended from the arch is a pure white dove, and on the top of each pillar is a large star. Behind the open gate is a representation of the Garden of Eden, in which flowers, roses and ferns abound in profusion. Across the front is the inscription, "Light lieth the earth ou thee."

the pleasant east room of the cottage where for the past four weeks Gen. Sheridan had lain in his illness, the body of the dead commander lies tonight, clothed in the full uniform of his rank. By his side rests the saber which pounded the way to many a victory. The expression of the face is that of quiet and repose, though traces of long illness are noticeable. The general expression is said to be more natural than during the last few weeks of his life.

The steamer will leave New Bedford at 3 p.m. tomorrow and proceed to Nonquitt, where the body with the family and other members of the funeral party will be taken on board. Leaving Nonquitt at 4:45, the steamer will proceed direct to Vineyard Landing, where a special train will be in waiting. The train will leave promptly at 6 o'clock, and will go over the Oid Colony to Walpole, thence taking the New York and New England road for Jersey City, where the Pennsylvania railway will be taken to Washington.

A guard of honor appointed by the Loyal Legion will escort the body from the time it is borne from the cottage until it is placed on the train. Tonight the body is guarded by Col. Kellogg and Col. Blount of Gen. Sheridan's staff. Undertaker Wilson of New Bedford and his son came down tonight to make final preparations for putting the body into the casket. Mrs. Sheridan will accompany the remains to Washington and return to Nonquitt on Monday next. The two cars which will be used for the special train arrived in the city tonight. One is a combination of baggage and passenger car. In the front compartment the body will be placed. The other compartment where the body will lie is heavily draped in black and white. An American fag is over the door. The floor is covered with black. The two cars containing the funeral party will be Pullmans, and are appropriately draped.

THE SITE OF THE GRAVE.

WASHINGTON, Aug. 7.—Gen. McFeeley, Gen. D. H. Rucker (retired) and Maj. Lydecker of the army, visited Arlington Cemetery today to select a site for the grave of Gen. Sheridan. The site chosen is upon an open plateau on the hill, upon which stands the old manor house.

The Secretary of War this afternoon issued a general order to the army reciting the facts of the military career of Sheridan, and ordering the flacs of all military stations plac d at half-mast. Seventeen minute guns will be fired on the day following the receipt of this order, and the usual badges of mourning displayed for 30 days.

For the funeral of Gen. Sheridan the following order of services at the church and grave have been arranged: At 10 a.m. a solemn requiem mass at St. Matthew's Church will be celebrated by Rev. J. F. Mackin, with Rev. J. T. Kervick as deacon and Rev. F. Ryan as sub-deacon. Absolution will be pronounced by Cardinal Gibbons. The services at the grave will be conducted by Rt. Rev. John Foley, Bishopelect of Detroit.

Important Base-ball Rule.
PHILADELPHIA, Aug. 7.—At a special
meeting of the American Base-ball Association today a most important decision was reached. It was the abolishment of the percentage system of dividing gate receipts between home and visiting clubs, and a re-turn to the former system of the home club paying the visitors a guarantee for each game and retaining the gate receipts.

Billiard Tournament.
SARATOGA, Aug. 7.—The cushion-carom billiard tournament between leading experts began here last night. Maurice Daly beat William Sexton. The score was 25 to

The billiard contest this evening in the tournament was between Slosson and Sexton, and was won by the former in 55 minings. Sexton made only 100 points. The greatest run by Slosson was 20 and by Sexton 10. Daly and Slosson will play the final game tomorrow night.

late last night. The Farrallone is the largest steamer-schooner yet built upon this coast, and in speed and carrying capacity is expected to surpass all of her predecessors. Her dimensions are: Extreme length, 175 feet; length of keel, 160 feet; beam, 33 feet 8 inches; depth of hold, 10 feet 6 inches. She is designed to carry 6,000,000 feet of lumber, and will be fitted up to carry a number of passengers also.

FOREIGN AFFAIRS.

The Parnell Inquiry Bill Before the Commons.

London, Aug. 7.—[By Cable and Associated Press.] In the Commons this evening W. H. Smith, Government leader, moved that if the Parnellite Inquiry Bill was not passed by midnight the 12 o'clock rule be suspended. The motion was adopted, and the House proceeded to the consideration of the bill as amended.

Matthews, Home Secretary, moved to in-sert the following: "If any person having been served with a summons under this act shall fail to appear, the commission shall have power to issue a warrant for the arrest of such person." Adopted.

Matthews next moved that anybody who

is summoned to attend before the commis-sion and who refuses or fails to attend, shall be liable to punishment for contempt of the High Court of Justice of England, Parnell moved an amendment to the effect that any person refusing to make full and true disclosure touching all matters in respect to which he might be examined, should be liable to punishment by the High

Court of Justice. After a discussion this A long discussion ensued on the proposal by Hunter (Liberal) to compel the Times to formulate its charges before the opening of the inquiry by the commission. It was opposed by the Government and finally re-

jected.

Several amendments, consisting mainly of minor instructions to the commission, were rejected. Other new clauses were then debated, and the House adjourned at 2:40 a.m.

THE FRENCH RIOTS. PARIS, Aug. 7.—Seven arrests have been made at Amiens of persons concerned in the riot there yesterday. Four of them were foreigners. The Mayor issued an or-der forbidding the people to assemble, un-der penalty of the riot act of 1848. Strikers continue the agitation and another riot is feared. Troops guard the factories and are patrolling the streets.

GREAT STRIKE THREATENED. LONDON, Aug. 7.—The cardroom hands in the mills at Blackburn notified the masters that unless they are granted an advance of 10 per cent. in wages they will strike. This would involve the stoppage of 15,030 looms, 1 000,000 spindles and disengagement of 83,000 operatives.

TERRIBLE DISASTER. During a "norther" last night two large barks, one English and the other French, sank in the harbor, after having been in collision. The crew of the English vessel, consisting of '17 men, and seven of the Frenchmen were drowned. Five vessels were blown ashore and dashed to pleces.

THE COLOR LINE IN FORESTRY. London, Aug. 7.—The High Court of Foresters, sitting at the Reading House, carried, by a vote of 403 to 93, a motion recarried, by a vote of 405 to 93, a motion revoking the powers of the subsidiary High Court of America and suspending the American courts until they could comply with the rule regarding the admission of colored persons.

LETTERS TO THE TIMES

A Woman's Words. Los Angeles, Aug. 6.—[To the Editor of The Times.] The article in Monday's paper, with regard to the real estate of married women, needs no comment. When one class of people is ruled by another class, injustice ple is ruled by another class, injustice and cruelty will surely follow. When one-half the people of these United States are subject to the other half, they ought to expect injustice and cruelty as a matter of course. They ought to consider that women have no rights that men are legally bound to respect. The same power that enables them to enact one code of laws today, permits them to reverse that code tomorrow.

By the ardent and untiring efforts of

By the ardent and untiring efforts of pioneers in the woman-suffrage cause for the last 40 years, Legislatures have been induced to modify the laws respecting women, but they can rescind those laws at any time, relegating woman back to her status under the old common law.

When will women lay aside their superficiality and frivolity, look at the matter in its true light, and, rising en masse, demand an equal right with men in making the laws of the Nation? When they do this they would soon obtain the right. Men are naturally just and humane. It is these unjust laws that are injuring them, as well as women.

Mayor Pond delivered a congratulatory address on the occasion of anciner successful inaugural, and assured the directors or behalf of the citizens of San Francisco of

thi mangural, and assured the directors of their continued aid and support.

Several vocal and orchestral selections were rendered, after which Robert S. Moore, manager of the Risdon Iron Works, delivered an oration.

The speaker enumerated the benefits derived from the successful toil of mechanics and wace-workers all over this prosperious State, and deduced the obligation owing to the Government under which this prosperity is possible. In conclusion be said: "Mechanics should be proud of their calling; should preserve themselves from all slavery, civil, ecclesiastical and political; should educate their children and demand proper legislation relating to apprenticeship for them. The necessity for free thought, free conscience and tree ballos should be proud of American citizenship, and be ever ready to offer their lives in defense of their flag."

THE SAN CARLOS SCARE.

No Trouble at the Reservation, and None Anticipated SAN FRANCISCO, Aug 7.—[By the Asso-ciated Press.] A dispatch from an army official at San Carlos, Ariz., says: "Everything is quiet at the reservation. Gen. Miles is still here. Two more Indians have come in, leaving only seven out. No Indians have left the reservation, and the slight disturbances have been purely local. No depredations have been committed against whites. Gen. Miles, however, took every precaution to protect the settlers. All accounts have been greatly exagger-

ated."

Washington, Aug. 7.—Gen. Howard has telegraphed the Secretary of War to the effect that Gen. Miles's last dispatch to him did not indicate a premediated outbreak of any extent on the part of the Indians of San Carlos Reservation. Assistant Adjutant Kelton today said the recent outbreak was merely a drunken squabble among disaffected Indians. There was every prospect that they would remain on the reservation and return to their camps.

CUT RATES.

The War on Passenger Fares Raging at San Francisco. San Francisco, Aux. 7.—By the Asso-ciated Press.] The rate-cutting war continues among local representatives of east-ern lines, and at the present time tickets to all points can be purchased at from 15 to 20 per cent. less than the rates fixed by the Transcontinental Association. Round-trip Transcontinental Association. Round-trip first-class tickets, with stop-over privileges, to Chicago were sold at several offices for \$80. The regular rate is \$100. To New York the rate was \$120 against \$140. The regular rate of second-class fares suffered in like or even greater proportion. Tickets to Chicago were quoted at \$30 and to New York at \$40.

J. G. Lindsey was appointed by Judge Terry to defend the villainous looking fiend. The Judge was forced to clear the courtroom of the immense crowd assembled to hear the disgusting details. The people were not very demonstrative in the courtroom, nor were the hundreds of people lin-ing the sidewalks and street in front of the

room, nor were the hundreds of people lining the sidewalks and street in front of the courthouse, but there was a quiet dependence and confiding trust placed in the officers of the law to see that justice was done. When compelled by Judge Terry to vacate the courtroom (as under certain circumstances the Court has the right, as well as duty, to expect of the public) the people slowly filed out, leaving the culprit surrounded by police officers who had been called in case any of the indignant and horrified citizens should let their feelings get the better of them.

The testimony was conclusive, and Judge Terry bound the defendant over to await the action of the Grand Jury, and the defendant was at once hustled out the back door into a carriage, and is now probably lodged in jail in Los Angeles. There were runsers last night that certain parties from the surrounding country would make an attempt to break open the jail and administer summary, though deserved, justice on the burly brute, and out of abn indant caution the officers removed the man Petersen to a secret place and kept him under close guard during the night. Mr. Wiff eugliby Stratton, the father of the little ones, is of respectable Quaker parentage, and is an exemplary man. It is now known that the man Petersen, on Sunday, enticed a little girl from the northern part of the city in to a street car, paying her fare and offering her money for candy, and then endeavored to get her to accompany him, but the frighte ned child escaped his clutches and ran home.

ANTI-LIOUOR MEETING The meeting of ladies of Pasadena, to take action on the temperance question, took place at the Methodist Church during took place at the Methodisc Church during the afternoon, yesterday. Mrs. Barber, of the W.C.T.U., acted as chairman of the assemblage. Several stirring addresses were made during the course of the meeting. Dr. Reid was requested to act for the ladical assemblage in the mass meeting in

the evening.

Resolutions bearing on the subject were

EVENING MASS-MEETING. There was a very large attendance of residents at the M. E. Tabernacle last night to here speakers on the anti-saloon ordinance

here speakers on the anti-saloon ordinance matter, and to consider means for enforcing that ordinance.

Mr. P. M. Green was chosen chairman, while Mr. Coleman of the Star acted as secretary of the meeting.

Several citizens expressed their views at length, and were loudly appleauded by the attentive audience. The first sensation of the evening was experienced when Mr. Metcalfe announced that Messrs, George Hermann and B. T. Smith had authorized him to state to the people that they had abandoned their intention of engaging in the wholesale liquor business in this city. Rousing cheers followed this announcement, and Judge McGee then introduced a resolution expressing the pleasure of the citizens on hearing their determination, and thanking those gentlemen for their expressed intentions.

Index McGee followed in a short speech

those gentlemen for their expressed interitions.

Judge McGee followed in a short speech in which he stated that officers of the law must suppress the liquor traffic in Pasadena, and cast reflections on City Attorney Polley for his seeming indifference, and claimed the officers could but would not take steps to close the fifteen places where intoxicating drinks are said to be sold in this city; that the whole duties of the City Attorney were not ended when he had given "advice" to the City Conneil.

THE SECOND SENSATION took place when Mr. Polley arose and made a heated reply to the remarks of the last speaker. He went on to state the difficulties of prosecuting this class of cases; that absolute proof was almost impossible to obtain, and the expense to the city of carrying these cases to and through the Supreme Court (as the defendants always sought to do) was much greater than generally supposed. He stated in a manly way that as yet he had never lost a city case, and his professional name was at stake, and that he was ready at all times to carry these cases to a successful completion, but that he must have the means with which to do so. Whatever may have been the feelings of the assembled people when Judge McGee ceased speaking, it was plain that Polley had enlisted their sympathies, and when he closed, was greeted with considerable ardor, because of the spirited defense of his position. Judge McGee was then granted additional time on a question of privilege, and spoke in a somewhat heated manner for a short time, when some one in the audience raised the point of order that this discussion was personal and outside the business of the evening. The point was speaker. He went on to state the difficuldiscussion was personal and outside the business of the evening. The point was decided to be well taken, and was greeted with rapturous applause. RESOLUTIONS.

The Committee on Resolutions then made their report through their chairman, Dr The resolutions were quite lengthy, but to the point, and were heartily adopted. FINANCES.

A committee of citizens was appointed to enlist the services of the people of the city in the cause and to collect money with in the cause and to collect money with which to carry on the warfare, and consisted of Messrs, C. M. Green, G. R. Swartwout, Col. W. A. Ray, Prof. C. W. Parker, Dr. H. A. Reid, I. B. Clapp, C. H. Converse, F. D. Stevens, Joseph Barnes, P. G. Wooster, C. C. Reynolds and Lyman Allen, who represent various denominations and lines of business in this community. PERSONALS.

The Bituminous Lime Rock Paving and Improvement Company
Take this opportunity of informing the citizens and property-owners of this city that the pavement laid on Main street, between First and Third streets, is NOT bituminous lime rock, but is an artificial mixture, and NOT laid by our company. We make this amouncement for the purpose of disabusing the minds of those who entertain the belief that this avement was laid by this company, and are pavement was laid by this company, and are pavement was laid by this company, and are disposed to criticise our material as being soft and not suitable for the streets of this city. he only bituminous lime rock pavement here was laid by this company, and extends on Main street from the south line of Third to Ninth street, and on Spring street from Temple to Ninth street. Bituminous lime rock does not become soft and mushy under the heat of the sun, but always remains firm and elastic. We have already laid on the streets elastic. We have already laid on the streets of this city about 500,000 square feet of this pavement, to which we take pleasure in invit-ng inspection. In view of the depression in the real estate sales market, we have decided to give special attention to the house-renting branch of our business. We want houses of all descriptions to rent. Our demand far exceeds our supply. Three days' rent will-pay our charges in all cases, and as we can probably rent your house three days sooner than you can, it will cost you nothing to secure a tenant for a month and possibly a year. If we rent it a week sooner than you could, we save you double what our charges will be; therefore put your property in our haads immediately and saw money. We keep a carriage to show your house to any one wishing to rent or buy it, and we advertise your property free. Try us. Los Angeles and San Diego Keal Estate Agency, No. 1 North Fort street.

ICE DEPARTMENT.

The quality of our ice is superior to natural ice in purity. The water of which it is made is taken from a deep driven well, is first boiled, then filtered and thus is absolutely free from all impurities. It is frozen evenly and solid, and will last 25 per cent. longer than natural ice. Actual tests will always prove this, and scientific men have long ago demonstrated and now admit it.

We are now prepared to furnish residences, and on application by postal card or otherwise our canvasser will visit and arrange for delivery. It should be generally taken so we can have paying routes. By using refrigerators and taking 50 pounds at a time much can be saved in price and as it will keep better in large pieces, it is a saving in all ways.
